JCPS Adult & Continuing Education SERVICES

Earn a GED®

Did you know that a GED® or high school graduate earns nearly \$10,000 more per year than someone without a diploma? What could you do with that extra cash? We can help you reach your GED® goal with a FREE assessment that lets you know if you're ready to test, FREE classes, and a FREE GED Ready™ test.

Prepare for College or Career

Our classes focus on college and career readiness. If you plan on attending college and want to refresh your skills, we offer classes geared specifically to the college-bound student. Participate in our programs that allow you to attend Jefferson Community and Technical College while working toward your GED® credential.

Learn English

Do you know someone who wants to learn English? Our English as a Second Language (ESL) classes can help! Designed for the non-native English speaker, our ESL program offers FREE morning and evening classes at convenient locations. Instruction covers all language skills including reading, writing, listening, and speaking. Beginning, intermediate, and advanced class levels are available.

Include the Family

Research tells us that parents are powerful educational role models. Our Family Education program encourages the whole family to learn together and support one another. The Family Learning program includes adult education classes, children's education, parenting workshops, and parent and child together (PACT) time. Also offered are family mentoring and service learning opportunities.

Upgrade Your Skills

Sometimes the only thing that stands between you and the job you want is better math or reading skills. Make sure you're prepared! We offer FREE morning, afternoon, and evening classes throughout Louisville to help you upgrade your skills.

Enrich Your Life

Are you looking to enhance your workplace skills or explore a new hobby? Our Louisville Learns program offers something for everyone. A variety of classes are offered throughout the community and online for your convenience. Visit www.LouisvilleLearns.org.

JCPS Adult and Continuing Education is committed to helping adults and their families reach their educational and occupational goals. We are always looking for new, creative partnerships and programs.
